

COMPASS BOX WHISKY COMPANY

HEDONISM

I believe that great grain whiskies from well chosen casks are the undiscovered treasures of Scotland's whisky kingdom. That's why I created this whisky and called it HEDONISM!

HEDONISM is our award winning blend of grain whiskies and is like nothing that's been bottled before in Scotland. No one has ever made a "vatted grain" (a blend of single grain whiskies from different distilleries) that shows off how delicious Scottish grain whiskies can be! It's a rare and seriously sexy style of Scotch whisky, unlike anything else on the market.

Many people think of grain whiskies as the "filler" whiskies in the well-known, commercial blends, but this is far from the whole story. Each grain whisky distillery in Scotland makes a distinctive spirit. And the best grain whiskies—from great casks—are some of the silkiest, sweetest, most mouth-wateringly delicious whiskies in the world.

John Glaser, Whiskymaker and Company Founder.

Flavour Descriptors:	Elegant flavours of vanilla cream, toffee, coconut.
Distillery Sourcing:	Single grains from Cameronbridge and Cambus
Wood:	100% first-fill bourbon barrels and first-fill American oak hogsheads.
Bottling Details:	Bottled at 43% Abv. Natural Colour. Not Chill Filtered. A natural, slight haze will form in this whisky when water is added or when it gets cold. This is a good thing!
