Tasting note:

Deep copper gold with amber lights with good beading.

Honey roasted nuts, Christmas-spiced sultanas, baked apples, custard creams, Liquorice Allsorts, nutmeg, rock salt and smouldering salt and sun-kissed drift wood.

Blockchain Traceability: In a world-first, by scanning the QR code on the back label, consumers will be able to trace each aspect of the production from field to the name of the bottler. Each bottle has a unique identifying code and digital certificate attached, which enhances security to both producer and consumer.

As part of the development of this exciting new project, we welcome all participation and feedback from consumers.
